Except as permitted under the United States Copyright Act of 1976, no part of this publication may be reproduced or distributed in any form or by any means, or stored in a data base or retrieval system, without the prior written permission of the publisher.

## Special Notes

1. Read special instructions on page 3.
2. French knots: use one strand of floss and wrap the needle twice.
3. Wavy lines on charts indicate regular backstitch in a different color.

## Model Information

All models are stitched on 14 ct. Antique White Aida using 2 strands for cross stitch and 1 strand for backstitch.

## Color Comparison Chart

The following are close shade substitutions but are not exact matches. A dash (--) indicates that an appropriate match is not available.

| DMC   | Anchor | DMC | Anchor | DMC  | Anchor |

## CROSS STITCH INSTRUCTIONS

### FULL CROSS STITCH

Be sure that all your stitches lay in the same direction. Bottom stitches in one direction and top stitches in the opposite direction. We work our stitches from the bottom left-hand corner to the top right-hand corner, then return in the opposite direction.

### 1/4 STITCH

How to recognize 1/4 stitches on your chart:

How 1/4 stitches look on fabric:

#### Helpful Hints

1. Stitch from corner to center using color indicated by symbol.
2. Backstitch last in color given in instructions.

**Special Note:** If there are NO backstitch instructions given, stitch the backstitch line in the color most predominant in that area of design.

### 3/4 STITCH

How to recognize 3/4 stitches on your chart: How 3/4 stitches look on fabric:

#### Helpful Hints

1. When a backstitch line crosses 2 squares vertically or horizontally and the symbols are the same on either side of the backstitch, this will indicate that these are full cross stitches (as shown in illustration #1). Backstitch last in color given in instructions.
2. If the symbols are different on either side of the backstitch, this will indicate that 3/4 stitches should be used in the color indicated by the symbol on either side of the backstitch (as shown in illustration #2 and #3). Backstitch last in color given in instructions.

### SYMBOL WITH BACKSTITCH

When there is backstitch over one square and the symbol is the same on either side of the backstitch, make a full cross stitch in that square. Backstitch last in color given in instructions.

### BACKSTITCHING INSTRUCTIONS

Backstitching (BS) is a part of some designs—also used for lettering. The purpose of the backstitch is to form a continuous line with each stitch touching. It may travel in any direction.

up at B--down at A  
up at C--down at B  
up at D--down at C  
up at E--down at D  
up at F--down at E  
up at G--down at F

### FRENCH KNOT

(Using 1 strand of floss)

1. Come up through fabric at point A. (Figure 1)
2. Hold floss in your left hand. Lay your needle over floss and wrap floss 2 times going clockwise. (Figure 2)
3. Keep holding floss securely with left hand and insert needle near point A (not in same hole). With floss still in your left hand (to help guide floss) pull your needle through to the back of your fabric. (Figure 3)

## SPECIAL LINEN INSTRUCTIONS

© Copyright Ginnie Thompson

**YOU WILL LOVE WORKING ON LINEN!** In the natural progression of cross stitching, you may have begun on an evenweave cotton fabric where one "square" on the cloth equalled one stitch. A first project may have been a tiny flower or heart. Next, most stitchers experience a period in which sayings are popular, each done with a particular person in mind. Then, we go on to projects both useful and beautiful; pillows, clothing accents, birth and wedding samplers, etc.

**Then--LINEN!** This is the stuff heirlooms are made of. Linen is durable; it has a strength that will outlast cotton. It allows greater flexibility of design. It launders and becomes more beautiful each time. And it is the best; elegant and traditional.

### TIPS FOR STITCHING ON LINEN

#### RAVELING

Use one strand of a light color to whip the edges of the fabric to prevent raveling.

#### HOOPLESS STITCHING

Cross Stitch on linen does not require an embroidery hoop. Instead, the hand is held in a relaxed position with the thumb and forefinger grasping the cloth and the little finger anchoring it (see fig. 1). On a tiny piece of fabric, it may be necessary to anchor with the ring finger. However, do not sew with the fabric wrapped over one finger--this may distort the stitches.

Fig. 1

#### KNOTLESS WASTE KNOT

Start with a knotless waste knot. This means to leave the tail of the thread on top of the fabric, up and out of the way (as in fig. 2). When the thread is finished, work it under stitches on the back, either in the direction of the stitches or vertically. Then rethread the original tail and work it under stitches on the back in the same way.

Fig. 2

#### THE FIRST STITCH

The first stitch and all subsequent regular stitches should begin at a VERTICAL thread. Why? The vertical threads (shown as shaded in fig. 3) act as little goal posts holding up the understitch. At the intersection where the vertical thread lays on top of the horizontal thread, start at the lower left hole. Starting at a vertical thread acts as an early warning system, also. Should a regular stitch suddenly begin at a horizontal thread, it is a sign that threads have been counted incorrectly.

Fig. 3

#### SEWING MOTION

A sewing stitch, one scooping movement in and out, is used with linen (see fig. 4). Stitches should be neither loose and sloppy nor so tight that the spaces between the linen threads are enlarged. If light can be seen across the top of a row of stitches, the tension is too tight. Correct tension results in flat stitches that do not distort the background weave.

Fig. 4

Do the bottom stitches first, then cross back (see fig. 5). The reverse side will be vertical lines, as in fig. 6.

Fig. 5

Fig. 6

#### 180 DEGREES

It is very helpful sometimes to turn your work upside down (180 degrees), turning the chart as well, but never turn the work only halfway around (90 degrees). This causes the direction of the top stitch to change, disrupting the texture of the finished piece.

#### LAUNDERING

Laundry your needlework only if it has become soiled. If it is clean, lay it face down on a terry cloth towel on the ironing board and wet it with a sprayer or a damp cloth, then iron dry. This allows the linen to shrink slightly, making the stitches stand up beautifully. If soap is required, hand wash with mild soap in cold water. Rinse thoroughly, handling the fabric gently; roll it in a towel and gently squeeze out excess moisture, then iron dry face down on a terry cloth towel.

#### MOUNTING

Mount your finished needlework as you would mount cotton fabrics. You'll discover, as you explore the world of linen stitching, that linen is extremely versatile and can be finished in a variety of ways other than framing.
